PROFESSIONAL SUMMARY

Self-motivated cybersecurity professional currently pursuing CPT (Certified Penetration Tester — IACRB) with hands-on experience in SOC operations, SIEM monitoring, log analysis, and responsible disclosure. Built a SOC Analyst Toolkit and a custom Real-Time Log Monitor/SIEM tool demonstrating practical L1 SOC skills. Successfully identified and reported a High severity vulnerability on Temu via HackerOne (CVSS 7.5). Ranked Top 25% on TryHackMe. Backed by 6+ years of technical operations experience.

CORE COMPETENCIES

SIEM Monitoring (Wazuh) | Real-Time Log Analysis | Alert Triage | Incident Response

Brute Force / SQLi / XSS / Path Traversal Detection | OWASP Top 10 | CVSS v3.1 Scoring

Network Security (TCP/IP, DNS, SMTP) | Python Scripting | Bug Bounty | Security Documentation

SECURITY PROJECTS & ACHIEVEMENTS

Custom Real-Time Log Monitor / SIEM Tool — Python

github.com/muhammed95rafi-arch | muhammed95rafi-arch.github.io

- Built a fully functional real-time log monitoring tool in Python — similar to enterprise SIEM alert systems
- Detects Brute Force, SQL Injection, XSS, Path Traversal, Port Scan, and Malware activity in live logs
- Implements IP-based alert cooldown system and severity-based alerting (CRITICAL / HIGH / MEDIUM / LOW)
- Live stats dashboard showing threat counts, uptime, and attack breakdown in real-time
- Supports real log file monitoring (auth.log, apache access.log) and demo simulation mode
- Hands-on experience with Wazuh SIEM — alert monitoring and log analysis

SOC Analyst Toolkit — Personal Project

github.com/muhammed95rafi-arch | muhammed95rafi-arch.github.io

- Built a complete SOC Analyst Toolkit including incident response playbooks, log analyzer, and threat detection scripts
- Playbooks designed around real-world L1 SOC workflows — alert triage, escalation, and shift handover documentation
- Demonstrates practical understanding of P1/P2 alert handling and structured incident documentation

Bug Bounty Researcher — HackerOne

- Discovered and reported High severity Privacy/Information Disclosure vulnerability on Temu.com (Report #3601420) — CWE-200, CVSS 7.5
- Identified publicly exposed purchase history of millions of users accessible without authentication
- Prepared professional security report with CVSS v3.1 scoring, PoC screenshots, and remediation recommendations

TryHackMe — Hands-on Cybersecurity Training

- Global Rank: Top 25% | Completed 7 rooms | Rank: VISIONARY [0x5]
- Practical training in SOC fundamentals, SIEM, network security, web application attacks, and Linux basics

WORK EXPERIENCE

Esko CDI Flexo Digital Imaging Operator | 6+ Years

- Operated advanced computer-to-plate digital imaging systems in high-precision technical environment

- Managed digital workflows, diagnosed technical issues, and maintained detailed operational logs
- Demonstrated consistent technical reliability, precision documentation, and systematic problem-solving

Mobile Technician — Hardware Repair

- Component-level hardware diagnostics and repair on mobile devices
- Systematic root cause analysis and technical documentation

EDUCATION

Bachelor of Commerce (B.Com)

- Self-study: SOC Fundamentals, OWASP Top 10, Web Application Security, CVSS Scoring, Network Security

CERTIFICATIONS & TRAINING

- CPT — Certified Penetration Tester (IACRB) — In Progress
- HackerOne Bug Bounty — Active Researcher | Verified High Severity Finding (CVSS 7.5)
- TryHackMe — Top 25% Global | VISIONARY Rank | 7 Rooms Completed
- Self-study: OWASP Top 10, SOC Fundamentals, Web Application Security, CVSS v3.1 Scoring
- Wazuh SIEM — Hands-on practical experience
