PROFESSIONAL SUMMARY

Experienced and detail-oriented Esko CDI Flexo Digital Imaging Operator with 6+ years of hands-on experience in high-precision flexographic printing plate production. Proficient in operating Esko CDI Spark digital imaging systems, managing digital prepress workflows, and ensuring consistent quality output. Strong technical troubleshooting skills with a proven track record of reliability and precision in a fast-paced production environment.

CORE COMPETENCIES

Esko CDI Spark Operation | Flexographic Plate Making | Digital Prepress Workflow
Quality Control & Inspection | Technical Troubleshooting | Equipment Maintenance
Production Documentation | Laser Imaging Systems | Plate Processing & Handling

WORK EXPERIENCE

Esko CDI Flexo Digital Imaging Operator

2018 - Present

Zincograph Company SA — Riyadh, Saudi Arabia

- Operate Esko CDI Spark 5080 computer-to-plate (CtP) digital imaging system for high-precision flexographic printing plate production
- Manage complete digital workflow from file preparation and RIP processing to laser exposure and plate quality verification
- Perform routine calibration, preventive maintenance, and troubleshooting of Esko CDI equipment
- Ensure strict quality control standards — inspect plates for resolution, registration accuracy, and imaging consistency
- Coordinate with prepress and production teams to meet tight production schedules
- Maintain detailed production logs, maintenance records, and technical documentation
- Train and guide junior operators on CDI system operation and safety procedures

Mobile Technician — Hardware Repair

2015 - 2018

Lava Official Service Center — Trivandrum, India

- Performed component-level hardware diagnosis and repair on mobile devices
- Handled motherboard repair, display replacement, and battery/charging port servicing
- Maintained service records and delivered customer technical support
- Developed strong systematic troubleshooting and precision repair skills
